

ECDL EXPERT

ECDL EXPERT

Prerequisites

- ECDL Core

Certifications

- ECDL Advanced for each module + ECDL EXPERT

Course Outline

The ECDL Advanced is the next step for individuals who have achieved their core ECDL certification and who wish to further enhance their skills and knowledge and to demonstrate their competence in using a computer at a higher level.

ECDL Advanced is an intensive program that awards Candidates with a higher-level certification at the successful completion of each module. ECDL Advanced covers the following areas:

- Advanced Word Processing
- Advanced Spreadsheets
- Advanced Database
- Advanced Presentation

The ECDL Advanced is modular and a certificate is awarded for successfully passing a test for each module. Once the student obtains the four modules he will be awarded the ECDL Expert Certificate.
